## PROFILE

During my studies at [Aurel Vlaicu Arad](#) I had the possibility of acquiring the aptitudes of a [web developer](#). Besides the skills I picked up from every day-to-day courses, I was given the opportunity of studying at [RankingCoach](#) where I developed good communication skills and teamwork. I have also worked at a [CBH-SG Facility](#) as a web developer for 5 months. This has given me the opportunity to further polish my skills for the role.

## EXPERIENCE

During my studies for my bachelors in computer science I had the opportunity of attending an internship at [RankingCoach](#) for about 3 months and had dealt with both back end and front end development in my [SEO training](#). While working for [CBH-SG Facility](#) I developed an interactive webpage for [secure information transfer](#). It gave me the chance to continue a project and thus gaining [more experience on the field](#). Whilst working there I was tasked with handling all the IT duties as well, all of which has proven to be invaluable experience.
